

1013 Kraftform Micro Bitholding screwdriver, 97 mm

Series Kraftform Micro

EAN:	4013288183699	Size:	175x35x15 mm
Part number:	05051276001	Weight:	26 g
Article number:	1013 Kraftform Micro	Country of origin:	CZ
		Customs tariff number:	84661038

- Kraftform Micro bit holder
- Multi-component Kraftform Micro handle with anti-roll feature and swivel cap
- Suitable for take-up of bits with 4 mm halfmoon drive and bits with 4 mm HIOS drive
- Applications e.g. on smartphones, mobile phones, cameras, electronic equipment

Kraftform Micro holder with ergonomic Kraftform handle for fast and low-fatigue working. The anti-roll feature prevents any bothersome rolling away at the workplace. Suitable for take-up of bits with 4 mm halfmoon drive and bits with 4 mm HIOS drive. Ideal for applications on smartphones, cell phones, cameras, electronic equipment, in dental laboratories and dental surgeries.

For Halfmoon and HIOS Bits

Kraftform Micro handle

The refined screwdriver for electronics technicians

Applications e.g. on smartphones, mobile phones, cameras, electronic equipment

Features a combination bitholder for both bits with Halfmoon and bits with HIOS drive.

Multi-component screwdriver handle for ergonomic working.

The Kraftform Micro, with its three zones and their specific arrangement, satisfies these requirements perfectly. The free-turning cap that provides support for the hand works with these advantages, enabling quick and easy precision work.

The precision zone

The power zone

The fast-turning zone

Applications

The precision zone directly above the blade gives the user a better feel for the right rotation angle during fine adjustment work.

The power zone has integrated soft zones near the blade tip to ensure high torque transfer for loosening or tightening screws without losing contact with the screw.

The fast-turning zone just below the rotating cap allows rapid twisting.

Indispensable for many users, including electronics technicians, opticians, precision engineers, jewellers, EDP hardware fitters and model-makers
